|               | <i>Chairpersons: Prof. Richard Yu, Prof. Philip Li</i>                          |   |
|               | PS2.1 - Biomarkers to Predict Response to Therapy in FSGS Patients              | <b>Prof. Zhi-Hong Liu</b><br><i>Nanjing</i>   |
| 9:15 – 10:30  | <b>Parallel Symposium #1</b><br><b>Diabetic Nephropathy – Clinical Research</b> | <i>Hall 3G</i>                                |
|               | <i>Chairpersons: Prof. Ping Fu, Dr. Vincent Chow</i>                            |   |
| 9:15 – 9:40   | CS1.1 - Insulin Sensitivity in CKD  | <b>Dr. Hong Xu</b><br><i>Stockholm</i>        |
| 9:40 – 10:05  | CS1.2 - Cytokines and Diabetic Nephropathy                                      | <b>Dr. Cai-Mei Zheng</b><br><i>Taipei</i>     |
| 10:05 – 10:30 | CS1.3 - Risk of Progression of Diabetic Nephropathy                             | <b>Prof. Guang-Yan Cai</b><br><i>Beijing</i>  |
| 9:15 – 10:30  | <b>Parallel Symposium #2</b><br><b>IgA Nephropathy – Basic Research</b>         | <i>Room S221</i>                              |
|               | <i>Chairpersons: Prof. Jian Liu, Dr. Andrew Wong</i>                            |   |
| 9:15 – 9:40   | CS2.1 - Glomerular-podocytic-tubular Crosstalk in IgAN                          | <b>Prof. KN Lai</b><br><i>Hong Kong</i>       |
| 9:40 – 10:05  | CS2.2 - Spleen Tyrosine Kinase in IgAN  | <b>Dr. Frederick WK Tam</b><br><i>London</i>  |
| 10:05 – 10:30 | CS2.3 - Susceptibility Genes in IgA Nephropathy                                 | <b>Prof. York Pei</b><br><i>Toronto</i>       |
| 10:30 – 11:15 | <b>Coffee Break, Exhibition &amp; Poster Viewing</b>                            | <i>Hall 3F</i>                                |
| 11:15 – 12:30 | <b>Parallel Symposium #3</b><br><b>Lupus Nephritis – Clinical Research</b>      | <i>Room S221</i>                              |
|               | <i>Chairpersons: Prof. John He, Dr. UI Kuok</i>                                 |   |
| 11:15 – 11:40 | CS3.1 - Approach to Lupus Patients with Advanced Renal Failure                  | <b>Dr. Chih-Wei Yang</b><br><i>Taipei</i>     |
| 11:40 – 12:05 | CS3.2 - Current Treatment of Class IV and V Lupus Nephritis                     | <b>Prof. Tak-Mao Chan</b><br><i>Hong Kong</i> |
| 12:05 – 12:30 | CS3.3 - Treatment of Lupus Nephropathy with MSC                                 | <b>Dr. Lingyun Sun</b><br><i>Nanjing</i>      |

① Simultaneous Interpretation in English and Putonghua will be provided in all scientific sessions (Except Pathology Course, Roundtable Discussion & Lunch Symposia) unless specified.

# DETAILED PROGRAMME

|               |  |   |
|---------------|--|---|
| 11:15 – 12:30 | <b>Parallel Symposium #4<br/>Presentation of Young Investigator Awards</b>   | <i>Hall 3G</i>  |
|               | <i>Chairpersons: Prof. Christopher Chan, Dr. Samuel Fung</i>   |   |
| 11:15 – 11:27 | CS4.1 - (0037) A Novel Therapy for Type-2 Diabetic Nephropathy by Targeting Smad3-dependent lncRNA_5318  | <b>Dr. Sifan Sun</b><br>Hong Kong                     |
| 11:27 – 11:39 | CS4.2 - (0040) Macrophage Myofibroblast Transition Contributes to Renal Fibrosis in Allograft Rejection  | <b>Dr. Yingying Wang</b><br>Hong Kong                 |
| 11:39 – 11:51 | CS4.3 - (0043) Long Noncoding RNA-7949 Regulates Macrophage Activation in Renal Inflammation via the TLR4/NF-KB Pathway                            | <b>Dr. Linli Lyu</b><br>Nanjing                       |
| 11:51 – 12:03 | CS4.4 - (0120) Ablation of Prostaglandin E2 Receptor EP4 Gene Impairs Urinary Concentration in Mice  | <b>Dr. Xiaoyan Zhang</b><br>Shenzhen                  |
| 12:03 – 12:15 | CS4.5 - (0136) Podocyte SIRT1 Deficiency Contributes to Albuminuria and Renal Fibrosis in Diabetic Kidney Damage in Mice                           | <b>Dr. Yi Guan</b><br>Shanghai                        |
| 12:15 – 12:28 | CS4.6 - (0271) A Comparison of The Novel Definitions (RIFLE, AKIN, KDIGO and Cys-C Criteria) for Acute Kidney Injury among Critically Ill Patients | <b>Dr. Jiaojiao Zhou</b><br>Chengdu                   |
| 12:30 – 14:00 | <b>Lunch Symposium (Sponsored by Astellas)</b>   | <i>Room S421</i>                                      |
|               | <i>Chairpersons: Prof. Richard Yu, Prof. Zhi-Hong Liu</i>  |   |
|               | LS1.1 - How to Manage Treatment Resistance in Lupus Nephritis  | <b>Prof. Tak-Mao Chan</b><br>Hong Kong                |
| 12:30 – 14:00 | <b>Lunch Symposium (Sponsored by Kyowa Kirin)</b>  | <i>Room S221</i>                                      |
|               | <i>Chairperson: Dr. Un I Kuok</i>  |   |
|               | LS2.1 - CKD-MBD Management - Current Aspects based on Latest Clinical Evidence   | <b>Dr. Tilman Bernhard Drüeke</b><br>Paris-Villejuif  |
| 12:30 – 14:00 | <b>Lunch Symposium (Sponsored by Roche)</b>  | <i>Room S225</i>                                      |
|               | <i>Chairperson: Dr. Matthew KL Tong</i>  |   |
|               | LS3.1 - A Bird's-Eye View on Anemia Therapy in CKD Patients : from Darkness to Light   | <b>Prof. Angel LM de Francisco</b><br>Santander       |
| 14:00 – 15:15 | <b>Parallel Symposium #5<br/>Nephropathy – Novel Therapeutic Agents</b>  | <i>Hall 3G</i>  |
|               | <i>Chairpersons: Prof. Menghua Chen, Dr. CB Leung</i>  |   |
| 14:00 – 14:25 | CS5.1 - Signal Transduction in Renal Fibrosis: Potential of Novel Therapeutic Agents   | <b>Prof. Chunsun Dai</b><br>Nanjing                   |
| 14:25 – 14:50 | CS5.2 - Novel Molecular Targets  | <b>Dr. John Cijiang He</b><br>New York                |
| 14:50 – 15:15 | CS5.3 - Fibrosis and Anti-Fibrotic Therapy   | <b>Prof. Shougang Zhuang</b><br>Providence / Shanghai |

# DETAILED PROGRAMME

|               |   |  |
|---------------|---|--|
| 14:00 – 15:15 | <b>Free Paper Presentation #1<br/>Diabetic Nephropathy</b>  | <i>Room S221</i>   |
|               | <i>Chairpersons: Prof. Jianghua Chen, Dr Wai-Kei Lo</i>   |  |
| 14:00 – 14:25 | FC1.1 - Mini-Lecture: ER Stress-Induced Cell Death in Podocytes   | <b>Prof. Hung-Chun Chen</b><br><i>Kaohsiung</i>                    |
| 14:25 – 14:35 | FC1.2 - (0041) Deletion of Smad3 Prevents Renal Fibrosis and Inflammation in Type 2 Diabetes  | <b>Dr. Bihua Xu</b><br><i>Hong Kong</i>                            |
| 14:35 – 14:45 | FC1.3 - (0056) Gene Deficiency of GPR124 Exacerbates Podocyte Injury in Diabetic Nephropathy  | <b>Dr. Xiaojie Wang</b><br><i>Jinan</i>                            |
| 14:45 – 14:55 | FC1.4 - (0057) Mir302a-3P Modulates Renal Epithelial-mesenchymal Transition in DKD by Targeting ZEB1  | <b>Dr. Wenbin Tang</b><br><i>Changsha</i>                          |
| 14:55 – 15:05 | FC1.5 - (0152) Autophagy-Lysosome Pathway in Renal Tubular Epithelial Cells is Disrupted by Advanced Glycation End Products in Diabetic Nephropathy | <b>Dr. Weijing Liu</b><br><i>Zhanjiang</i>                         |
| 15:05 – 15:15 | FC1.6 - (0159) Cdk5 Regulates ERK1/2/PPAR $\gamma$ -mediated Renal Tubulointerstitial Fibrosis in Diabetic Nephropathy                              | <b>Dr. Xiaoyan Bai</b><br><i>Guangzhou</i>                         |
| 15:15 – 16:00 | <b>Coffee Break, Exhibition &amp; Moderated Poster Presentation</b>   | <i>Hall 3F</i>   |
| 16:00 – 17:15 | <b>Free Paper Presentation #2<br/>IgA Nephropathy and Acute Kidney Injury</b>   | <i>Room S221</i>   |
|               | <i>Chairpersons: Dr. Stanley Fan, Dr S K Mak</i>  |  |
| 16:00 - 16:25 | FC2.1 - Therapeutic Strategy for Elderly Patients with Glomerular Disease   | <b>Dr. Qi Qian</b><br><i>Rochester</i>                             |
| 16:25 – 16:35 | FC2.2 - (0128) Clinicopathological Features and Renal Outcome Analysis of The IgA Nephrology Patients With Acute Kidney Injury                      | <b>Dr. Ling Zhang</b><br><i>Guangzhou</i>                          |
| 16:35 – 16:45 | FC2.3 - (0173) Long-Term Renal Survival in Male and Female Patients with IgA Nephropathy and Related Associated Factors                             | <b>Dr. Qiongqiong Yang</b><br><i>Guangzhou</i>                     |
| 16:45 – 16:55 | FC2.4 - (0196) Effect of Body Mass Index on Acute Kidney Injury after Cardiac Surgery   | <b>Dr. Zhouping Zou</b><br><i>Shanghai</i>                         |
| 16:55 – 17:05 | FC2.5 - (0250) Septic Acute Kidney Injury in Critically Ill Patients – Incidence, Clinical Characteristics and Outcomes                             | <b>Dr. Hoiping Shum</b><br><i>Hong Kong</i>                        |
| 17:05 – 17:15 | FC2.6 - (0371) Bedside ESRD Prediction Tool for IgA Nephropathy: A Multi-Center Discovery and Validation Study                                      | <b>Dr. Jingyuan Xie</b><br><i>Shanghai</i>                         |
| 16:00 – 17:15 | <b>Parallel Symposium #6<br/>Hypertensive Nephropathy – Basic Research</b>  | <i>Hall 3G</i>   |
|               | <i>Chairpersons: Prof. Xiaoqiang Ding, Dr. HL Tang</i>  |  |
| 16:00 – 16:25 | CS6.1 - Does (Pro)renin Receptor Deserve Its Name?  | <b>Prof. Tian-Xin Yang</b><br><i>Salt Lake City/<br/>Guangzhou</i> |
| 16:25 – 16:50 | CS6.2 - New Frontiers in the Intra-Renal Renin-Angiotensin System   | <b>Prof. Jia-Long Zhuo</b><br><i>Jackson</i>                       |
| 16:50 – 17:10 | CS6.3 - Advances in Molecular Pathology in Hypertensive Nephropathy: Role of TGF-Beta/Smads   | <b>Prof. Hui-Yao Lan</b><br><i>Hong Kong</i>                       |
| 19:00 – 22:00 | <b>President's Dinner (By Invitation Only)</b>  |  |

 Simultaneous Interpretation in English and Putonghua will be provided in all scientific sessions (Except Pathology Course, Roundtable Discussion & Lunch Symposia) unless specified.

# DETAILED PROGRAMME

## 13 DECEMBER 2015 (SUNDAY)

|               |   |                                       |
|---------------|---|---------------------------------------|
| 8:45 – 9:15   | <b>Plenary Lecture #3</b><br><b>Chan Woon Cheung Memorial Fund Award Lecture</b>      | <i>Hall 3G</i>                        |
|               | <i>Chairpersons: Prof. Peter Mathieson, Dr. KS Choi</i>                               |                                       |
|               | PS3.1 - Deducing the Decision-Making Process of a Kidney Cell                         | <b>Prof. Jing Zhou</b><br>Boston      |
| 9:15 – 10:30  | <b>Parallel Symposium #7</b><br><b>IgA Nephropathy – Clinical Research</b>            | <i>Room S221</i>                      |
|               | <i>Chairpersons: Prof. YY Ng, Dr. Sunny Wong</i>                                      |                                       |
| 9:15 – 9:40   | CS7.1 - The Oxford Classification – A Chinese Perspective                             | <b>Prof. Zhi-Hong Liu</b><br>Nanjing  |
| 9:40 – 10:05  | CS7.2 - Natural History and Prognosis of IgA Nephropathy in Chinese                   | <b>Dr. Jicheng Lv</b><br>Beijing      |
| 10:05 – 10:30 | CS7.3 - Immunosuppressive Treatment for IgA Nephropathy - When and How?               | <b>Prof. Sydney Tang</b><br>Hong Kong |
| 9:15 – 10:30  | <b>Parallel Symposium #8</b><br><b>Nephropathy – Genetic Studies</b>                  | <i>Hall 3G</i>                        |
|               | <i>Chairpersons: Dr. Matthew Tong, Dr. Frederick W K Tam</i>                          |                                       |
| 9:15 – 9:40   | CS8.1 - Genomic Studies in IgA Nephropathy  | <b>Prof. Xueqing Yu</b><br>Guangzhou  |
| 9:40 – 10:05  | CS8.2 - Genomic Studies in Diabetic Nephropathy                                       | <b>Prof. Ronald Ma</b><br>Hong Kong   |
| 10:05 – 10:30 | CS8.3 - A Cross-Road of Genetic Predisposition of Lupus Nephritis and IgA Nephropathy | <b>Dr. Hong Zhang</b><br>Beijing      |
| 10:30 – 11:15 | <b>Coffee Break, Exhibition &amp; Poster Viewing</b>                                  | <i>Hall 3F</i>                        |
| 11:15 – 12:30 | <b>Parallel Symposium #9</b><br><b>Nephropathy – Latest Clinical Trials</b>           | <i>Hall 3G</i>                        |
|               | <i>Chairpersons: Dr. WC Yang, Dr. Lina Choong</i>                                     |                                       |
| 11:15 – 11:40 | CS9.1 - Treatment of Focal Glomerulosclerosis   | <b>Prof. Nan Chen</b><br>Shanghai     |
| 11:40 – 12:05 | CS9.2 - Latest Trials on ANCA-Related Vasculitis                                      | <b>Prof. Ming-Hui Zhao</b><br>Beijing |
| 12:05 – 12:30 | CS9.3 - Tradition Chinese Medicine in Diabetic Nephropathy                            | <b>Prof. Ping Li</b><br>Beijing       |

# DETAILED PROGRAMME

|               |   |  |
|---------------|---|--|
| 11:15 – 12:30 | <b>Parallel Symposium #10<br/>Diabetic Nephropathy – Basic Research</b>   | <i>Room S221</i>                                 |
|               | <i>Chairpersons: Dr. Evan Lee , Prof. Limin Lu</i>  |  |
| 11:15 – 11:40 | CS10.1 - Diabetic Nephropathy: the Role of Nuclear Receptors  | <b>Prof. You-Fei Guan</b><br>Shenzhen            |
| 11:40 – 12:05 | CS10.2 - Lipid Nephrotoxicity in Diabetes   | <b>Prof. Xiong-Zhong Ruan</b><br>London/Shenzhen |
| 12:05 – 12:30 | CS10.3 - Sirt1 in Diabetic Nephropathy  | <b>Prof. Chuan-Ming Hao</b><br>Shanghai          |
| 12:30 – 14:00 | <b>Lunch Symposium (Sponsored by Baxter)<br/>Long-Term Renal Consequences from Acute Kidney Injury – Where Are the Opportunities in Asia?</b> | <i>Room S421</i>                                 |
|               | <i>Chairperson: Prof. Zhi-hong Liu</i>  |  |
| 12:30 – 13:00 | LS4.1 - The Burden of Chronic Kidney Disease after Acute Kidney Injury - an Asian Perspective   | <b>Asst. Prof. Vincent Wu</b><br>Taipei          |
| 13:00 – 13:30 | LS4.2 - AKI in China - Changing Times and Needs   | <b>Prof Nan Chen</b><br>Shanghai                 |
| 13:30 – 14:00 | LS4.3 - Does Modality of Acute Renal Replacement Therapy Affect Renal Recovery After Acute Kidney Injury?                                     | <b>Asso. Prof. Ron Wald</b><br>Toronto           |
| 12:30 – 14:00 | <b>Lunch Symposium (Sponsored by Novartis) 🗣️</b>   | <i>Room S221</i>                                 |
|               | <i>Chairperson: Prof. Philip Li</i>   |  |
|               | LS5.1 - Current Approaches to the Management of the Diabetic Patient with Renal Disease   | <b>Prof. Mark Cooper</b><br>Melbourne            |
| 12:30 – 14:00 | <b>Lunch Symposium (Sponsored by Pfizer)</b>  | <i>Room S226-7</i>                               |
|               | <i>Chairpersons: Prof. Richard Yu, Prof. Sydney Tang</i>  |  |
| 12:30 – 13:00 | LS6.1 - Proteinuria and Hypertension  | <b>Prof. Enyu Imai</b><br>Nagoya                 |
| 13:00 – 13:30 | LS6.2 - Atrial Fibrillation in CKD Patients   | <b>Dr David CW Siu</b><br>Hong Kong              |
| 14:00 – 15:15 | <b>Parallel Symposium #11<br/>Hypertensive Nephropathy – Clinical Research</b>  | <i>Hall 3G</i>                                   |
|               | <i>Chairpersons: Dr. Nelson Leung, Dr. Desmond Yap</i>  |  |
| 14:00 – 14:20 | CS11.1 - Hypertension in Non-Dialytic CKD Patients  | <b>Prof. Ying Zheng</b><br>Beijing               |
| 14:25 – 14:45 | CS11.2 - Blood Pressure Target – A Critical Review  | <b>Prof. Alfred Cheung</b><br>Salt Lake City     |
| 14:50 – 15:10 | CS11.3 - Folic Acid Supplementation and Target Organs Protection in Hypertensive Population   | <b>Prof. FF Hou</b><br>Guangzhou                 |

🗣️ Simultaneous Interpretation in English and Putonghua will be provided in all scientific sessions (Except Pathology Course, Roundtable Discussion & Lunch Symposia) unless specified.

# DETAILED PROGRAMME

|               |  |  |
|---------------|--|--|
| 14:00 – 15:15 | <b>Free Paper Presentation #3<br/>Clinical and Translational Research on Glomerular Disease</b>  | <i>Room S221</i>                           |
|               | <i>Chairpersons: Prof. Larry Chan, Dr. SL Lui</i>  |  |
| 14:00 – 14:25 | FC3.1 - Urinary mRNA and Lupus Disease Flare   | <b>Prof. CC Szeto</b><br>Hong Kong         |
| 14:25 – 14:35 | FC3.2 - (0064) Hyperphosphatemia and Tubulointerstitial Injury in the Progression of Diabetic Nephropathy  | <b>Dr. Song Jiang</b><br>Nanjing           |
| 14:35 – 14:45 | FC3.3 - (0066) PLA2R Autoantibodies and Glomerular PLA2R Deposit in Membranous Nephropathy: How to Evaluate the Roles They Played?   | <b>Dr. Huazhang Qin</b><br>Nanjing         |
| 14:45 – 14:55 | FC3.4 - (0160) MicroRNA-130b Improves Renal Tubulointerstitial Fibrosis via Repression of Snail-Induced Epithelial-Mesenchymal Transition in Diabetic Nephropathy          | <b>Dr. Xiaoyan Bai</b><br>Guangzhou        |
| 14:55 – 15:05 | FC3.5 - (0204) Core Fucosylation Regulates the Process of Pericyte-Myofibroblast Transition  | <b>Dr. Yiyao Deng</b><br>Dalian            |
| 15:05 – 15:15 | FC3.6 - (0370) Urinary B2-Microglobulin can Predict Effect of Corticosteroids Treatment in Patients with Primary Glomerulonephritis  | <b>Dr. Qinjie Weng</b><br>Shanghai         |
| 15:15 – 16:00 | <b>Coffee Break, Exhibition &amp; Moderated Poster Presentation</b>  | <i>Hall 3F</i>                             |
| 16:00 – 17:15 | <b>Free Paper Presentation #4<br/>Renal Inflammation and Fibrosis</b>  | <i>Room S221</i>                           |
|               | <i>Chairpersons: Prof. CC Huang, Dr. YL Cheng</i>  |  |
| 16:00 – 16:25 | FC4.1 - Mini-Lecture: New Targets of Wnt/ $\beta$ -catenin on Renin-Angiotensin System   | <b>Prof. Youhua Liu</b><br>Pittsburgh      |
| 16:25 – 16:35 | FC4.2 - (0039) ACE2/Mas Double Deficiency Promotes Angiotensin II-Induced Renal Fibrosis by Enhancing the ERK1/2 MAPK- Smad3 Crosstalk Pathway                             | <b>Dr. Jun Ni</b><br>Hong Kong             |
| 16:35 – 16:45 | FC4.3 - (0053) Megalin/cubulin-lysosome-mediated Albumin Reabsorption is Involved in the Tubular Cell Activation of NLRP3 Inflammasome and Tubulointerstitial Inflammation | <b>Dr. Dan Liu</b><br>Nanjing              |
| 16:45 – 16:55 | FC4.4 - (0205) Role of Mitochondrial Dysfunction and ROS Production in Ang II-induced NLRP3 Inflammasome Activation  | <b>Dr. Yi Wen</b><br>Nanjing               |
| 16:55 – 17:05 | FC4.5 - (0344) Targeted Deletion Of Numb from Proximal Tubules Attenuates Interstitial Fibrosis by Mitigating G2/M Arrest  | <b>Dr. Fengxin Zhu</b><br>Guangzhou        |
| 17:05 – 17:15 | FC4.6 - (0380) Endothelial Progenitor Cells Attenuated Obstructive Induced Renal Fibrosis by Inhibiting the Pericyte-Myofibroblast Transition                              | <b>Dr. Juan Yang</b><br>Wuhan              |
| 16:00 – 17:15 | <b>Parallel Symposium #12<br/>Lupus Nephritis – Basic Research</b>   | <i>Hall 3G</i>                             |
|               | <i>Chairpersons: Prof. XQ Yu, Dr. LS Hooi</i>  |  |
| 16:00 – 16:25 | CS12.1 - T Cell Immunity in SLE  | <b>Prof. Song-Guo Zhen</b><br>Pennsylvania |
| 16:25 – 16:50 | CS12.2 - Novel Biological Agents for Lupus Nephritis   | <b>Prof. LS Tam</b><br>Hong Kong           |
| 16:50 – 17:30 | CS12.3 - Urinary Biomarkers for Nephritis  | <b>Dr. Linli Lyu</b><br>Nanjing            |
| 17:30 – 18:00 | <b>Closing Remarks</b>   | <i>Hall 3G</i>                             |
